**Title:** July Book Club - *Everything is Figureoutable* by Marie Forleo

### **Course Description:**

This book club will focus on the book *Everything is Figureoutable* by Marie Forleo. Discussion will explore how the principles in *Everything Is Figureoutable* can strengthen the professional mindset of speech language pathologists and audiologists. Through guided discussion and applied reflection, participants will examine strategies for navigating clinical challenges, enhancing adaptability, and fostering more effective problem solving. Practical integration of mindset tools to support improved client care, collaboration, and overall professional growth within communication sciences and disorders will be discussed

### **Learner Outcomes:**

- After completing this activity, participants will be able to identify key principles from *Everything Is Figureoutable* and explain how they apply to clinical problem-solving in speech-language pathology and audiology.
- After completing this activity, participants will be able to describe at least three mindset strategies from the book that can support resilience and adaptability in clinical practice.
- After completing this activity, participants will be able to evaluate how adopting a growth oriented mindset can improve client outcomes, interprofessional collaboration, or workflow efficiency.

**Presenter:** Liz DeVelder, MA, CCC-SLP

**Biography:** Liz DeVelder, MA, CCC-SLP is a Lecturer and Clinical Educator at the University of South Dakota. Liz teaches several undergraduate courses in the program including Introduction, Speech, Language, and Hearing Development, and Clinical Methods. At the USD Speech-Language & Hearing Clinic, her clinic caseload typically is filled with language, autism, and literacy in addition to serving as the SLP Clinic Coordinator.
